Gabbs TG Drilling

Dear Ms. Knutson;

Enclosed is a Sundry Notice to move the well head locations within the permitted 10 acre site and change the drilling program for TG wells to reflect the use of off-road drilling equipment. Note this equipment does not necessitate the construction of roads or pads as permitted in the NOI. We are also submitting a sundry to relocate TG well 36-18 to site location 75-29. This 75-29 site was not specifically identified in the EA however the site is with a general block that was surveyed.

Please advise us on the scope of analysis necessary to permit this site. If necessary we can provide a contractor for assistance. If you have any questions please feel free to contact me at 356-9029 x32214

Sincerely,

Scott Kessler
Regulatory Affairs Administrator
