Bureau of Land Management
Winnemucca Field Office
5100 East Winnemucca Boulevard
Winnemucca, Nevada 89445

Attention: Dave Hays, Assistant Field Manager, Non-Renewable Resources

Subject: Request for geophysical casual use geophysical exploration at Patua, NV

Dear Dave,

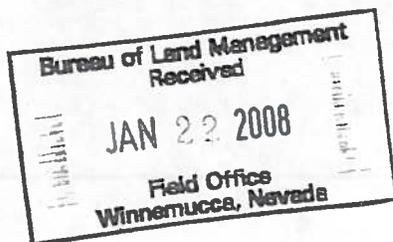

Vulcan Power Company is planning gravity and MT geophysical surveys at our Patua leases. We sent our application for permit to Carla James (775-885-6131) of the Carson City Bureau of Land Management's office.

Carla reviewed the application and informed us that a portion of the area to be surveyed was in the Winnemucca BLM area and referred us to you. We are forwarding to you for your use the applications.

Our work crews will be held up if approval for this activity is delayed, so we appreciate any help you can give us in expediting this application.

Best regards

Jim Kiser
Vice President Engineering
