

Cancun outcomes and the Technology Mechanism

Heleen de Coninck, January 25 2011, CLEAN webinar

Cancun on mitigation: laying the foundation for new building blocks

Long-term vision: 2C

Low-emission development

Emission reductions for
developed countries

**Technology
Mechanism**

“MRV”

Emissions and financial
commitments

**Green Climate
Fund**

Focus on Technology Mechanism

Facilitate implementation of adaptation and mitigation actions and stimulate innovation in developing countries

Technology Executive Committee

- Replace EGTT
- Technology needs
- Facilitate actions for tech development and transfer
- Strategic, guidance role

Climate Technology Centre & Network

- Centre should facilitate a Network of national, regional, sectoral and international technology networks, organizations and initiatives
- Advice, support, information and support
